

M98 SUPERWASH TFR

PREMIUM NON-CAUSTIC TRAFFIC FILM REMOVER

SCRUBB

PRODUCED BY Orcahygiene.

High-active concentrate for the effective removal of road film, grease and grime from all vehicle surfaces. Balanced formulation delivers a powerful clean whilst protecting surfaces from corrosion and dulling. Specialist water-softening ingredients enhance performance and protect pressure-washers from scale build up. Completely free from solvents, phosphates and caustic ingredients.

- Non-caustic, solvent free formulation
- Safe for use on all paint types & surfaces
- Premium concentrated formula
- Maximum performance & economy

DIRECTIONS FOR USE:

FOR HEAVY DUTY CLEANING OF VEHICLES, MACHINERY, PLANT & EQUIPMENT: Dilute according to level of soil, aiming for a nozzle-tip concentration of between 1% for light soiling to 5% for heavy soiling. Pre-rinse surfaces with water, removing heavy deposits, then apply M98 Superwash solution through a pressure washer or pump sprayer at the appropriate dilution. Allow between 2-5 minutes contact time but do not allow to dry on surfaces. Then use a pressure washer to thoroughly rinse with water, working from the top to the bottom.

M98 Superwash is a powerful cleaning agent for professional use. Observe directions for use carefully.

CONTAINS:

Isotridecanol ethoxylated (8-E0)
