

HEAVY DUTY DEGREASER

**POWERFUL MULTIPURPOSE CLEANER
MADE WITH NATURAL CITRUS OILS**

SCRUBB SHOT Heavy Duty Degreaser quickly shifts grime, grease, soot, fuel stains, tobacco film, fly deposits, engineering oils and many other tough soils from work surfaces, equipment, vehicles and tools. Ideal for use on multiple surfaces including stainless steel, vinyl flooring, painted surfaces, concrete and plastic. Discover the **power of industrial-strength cleaners that get the job done** – whilst reducing your impact on the environment. This bottle of super concentrate cleaner **makes at least 12 fills of the Pro Trigger Sprayer**, reducing plastic waste by a minimum of 80% compared to using shop-bought ready-to-use trigger sprays.

FOR BEST RESULTS:

Dose a shot into your Pro Trigger Sprayer as per the directions shown. Replace the trigger and shake a couple of times to mix. Adjust the trigger nozzle to deliver your preferred spray pattern, and spray on the surface to be cleaned. Allow to work for 2-5 minutes, then use a non-scratch brush or sponge to work the cleaner into the dirt. Don't allow the cleaner to dry on the surface. Wipe up with a clean cloth, or rinse thoroughly with clean water. Always test on an inconspicuous area before use.

Pro Tip: for a cleaning power boost, try adding an extra shot of Heavy Duty Degreaser to your Pro Trigger Spray bottle. Or, for a lighter clean, dose just half the shot into your Pro Trigger Spray to make your concentrate go even further!

WARNING:

Contains: Alcohols, C9-11, ethoxylated; (R)-p-mentha-1,8-diene. May cause an allergic skin reaction. Causes serious eye damage. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Do not breathe mist/spray. Wear eye protection/protective gloves. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents/container in accordance with local regulations.

INGREDIENTS:

Non-ionic surfactants 5-15%; aliphatic hydrocarbons <5%; perfumes (D-LIMONENE) <5%
