### IDEAL USE CASES:

- **Rejuvenating timber and composite decking:** Removes built-up grime, grease, and algae, restoring decks to their original look.
- **Cleaning newly installed decking:** Prepares fresh timber by stripping away factory pretreatments, ensuring better adhesion for stains and finishes.
- **Removing stains and contaminants:** Lifts bird droppings, dirt, and organic buildup that can make decking look aged and worn.
- **Ideal for cleaning and maintaining exterior cladding:** Use S45 Decking Cleaner to clean composite or timber cladding, ensuring a fresh and well-maintained appearance.

### BEST PRACTICE:

- **Apply before winter:** A thorough clean before the colder months can help prevent algae buildup, which can make decking dangerously slippery.
- **Use in shaded areas:** Decking in shaded or damp areas is more prone to algae growth - regular use of S45 Decking Cleaner keeps these surfaces safe and clean.
- **For heavy staining:** Allow up to an additional hour of contact time before rinsing to maximise cleaning power.
- **Regular maintenance:** Using S45 Decking Cleaner as part of a routine cleaning schedule helps keep decking in top condition year-round, preventing long-term buildup of grime and algae.
- **Test before sealing:** If you plan to stain or seal the decking, ensure the surface is thoroughly dry and free of residue after cleaning.
