

SANDSTONE & PAVING CLEANER & RENOVATOR

SUITABLE FOR ALL
TYPES OF SANDSTONE

SCRUBB[®]
SO YOU DON'T HAVE TO.

SCRUBB Sandstone Paving Cleaner will lift even deeply ingrained grime, black spots and stains to deeply clean and restore the surface to its original appearance. Developed for the renovation of natural sandstone paving without eroding or etching the surface.

- Specialist deep-cleaning formulation
- Removes dirt, black spots & stains
- Restores sandstone colour

DIRECTIONS FOR USE:

Don't apply when rain is forecast within the next 12 hours.

Step 1. Remove loose debris, leaves etc. from the surface, then apply SCRUBB Sandstone Paving Cleaner & Renovator neat using a sprayer or watering can. **Step 2.** Once the area is saturated, leave for at least 12 hours, preventing access to the area by children and pets during this time. **Step 3.** After at least 12 hours, if desired a pressure washer may be used to remove the cleaner. However, for best results the cleaner may be left to continue working for several days, then thoroughly rinsed. **Coverage:** up to 30 square metres per 5L. **Tip:** Heavily contaminated surfaces may require additional contact time. In such cases, after saturating the surface, work in with a stiff-bristled brush. Then allow at least 36 hours contact time, and re-apply SCRUBB Sandstone Paving Cleaner & Renovator at least once during this time, before pressure-washing off for best results.

DANGER:

Contains: sodium hypochlorite. May be corrosive to metals. Causes skin irritation. Causes serious eye damage. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Keep only in original packaging. Wash hands and exposed skin thoroughly after handling. Wear eye protection, protective gloves. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE/doctor. Absorb spillage to prevent material damage.
